TEST REPORT No. 7604/2018

Identification number of sample: H 4028/2018

Order No. : 2018190401

Test item(s): Corn tubes filled with milk cream

VAT: 47118971

Customer: ALASKA FOODS s.r.o., 044 43 Vajkovce 143

Producer: ALASKA FOODS s.r.o., 044 43 Vajkovce 143

Place of taking sample : ALASKA FOODS s.r.o., 044 43 Vajkovce 143

Sample was taken : by customer

Date of sampling: 19.4.2018

Date of receipt the test item(s) to the laboratory: 23.4.2018

Time: 11:50

Form of consignment: by post

Packing : original

The date of ending analysis: 3.5.2018

Test results

Chemical analysis:

Parameter	method	A/N	Result	Unit	Benchmark levels	U
acrylamide	SOP 1.2.45	A	63	µg/kg	max.300	±15%

Method used :

SOP 1.2.45

A

Determination of acrylamide by GC/MS/MS method

Test report No. 7604/2018

Judgement of accordance/discordance:

Received sample in examined parameters is in accordance with COMMISSION REGULATION (EU) 2017/2158 of 20 November 2017 establishing mitigation measures and benchmark levels for the reduction of the presence of acrylamide in food.

The results relate to the items tested. These results do not substitute the resolution of state administration bodies that are responsible for expert supervision. Test report shall not be reproduced except in full, without written approval of the laboratory. Examination of uncertainty is provided in accordance with the valid technical metrological laws. Measures used for examinations have been calibrated or reviewed according to valid metrological prescriptions.

Used abbreviations:

* - Sample out of limit

mg/kg k.f. - Expressed in the consumable form

SA / SN - labeled as such tests are examined subcontracted and are / are not accredited

U - Measurement uncertainty (relative if marked %, otherwise absolute)

Date of issue of report: 3.5.2018

Responsible for accuracy: Mgr. Janka Csereiová
